- 09/2023-Current **Technical Lead** ,ACM-W
- Using my skills learnt over the year to guide others.

PROJECTS

- E-commerce Website **ReactJs+web 1(html ,css, javascript),**
- Reactive website with different animation with MySql database
 - easy to maintain and less clutter on code
- CarRentalSystem **C++**
- This project used Qt creator 5.8.0, and it divided into 8 classes, the start one is login class.
 - The class of Sign_In implement the function of sign-up. (I made a typo)
 - It includes database, please use absolute path of your database in the "connectData" method, which located in Login, Sign_In and findRidePage classes.
- Stock graph **Data Science**
- learnt about importing and applying different libraries in python
 - reading data through a local .csv file and present in graphically using Matplotlib and 3DAxis
- On The Way **html,css,js,React,NodeJs,Expressjs,MySql**
- complete api formation
 - with minimum response time

Education:

Medi-Caps University , Indore | Bachelor's Degree In Computer Application | 3rd Year
